## Costs of Advice

Our charge for the preparation of a Statement of Advice ranges from \$1,000 to \$3,000 dependent on the complexity and scope of the advice provided. This fee covers the preparation of the financial plan detailed in the Statement of Advice, all relevant meetings, and discussions in relation to the Statement of Advice.

Statement of Advice Complexity / Scope	Cost
Financial Advice	\$3,000 - \$6,000
SMSF / Complex Advice	\$6,000 - \$12,000

An implementation fee may also be charged, and this is also dependent on the of complexity of the recommendations made, including administration, lodgements, and the timeline of implementing your advice.

Implementation Fees	Cost
Advice implementation	\$2,000 - \$3,000
SMSF / Complex Advice	\$3,000 - \$7,500

Fees are payable upon presentation of the Statement of Advice and upon substantial implementation. We may choose to waive fees where negotiated or where you proceed with recommendations contained within the Statement of Advice.

**An engagement letter or email will be provided in advance of a fee accrual and as the client you are welcome to accept or reject the engagement or discuss the terms and propose modifications to meet your needs. We ask for confirmation in writing or email on the terms of the engagement before proceeding with any work.**

## Cashflow and Modelling Services

Many clients seek projection and cashflow modelling of existing and planned investments into the future. The process of collecting the asset, income, liability and expense data is time consuming as is verifying the numbers and the models. These models can be invaluable for determining when goals will be reached and may not require the adviser to make recommendations or offer alternatives.

We include cashflow and forward projection analysis to clients in most cases and this is included in the cost of advice. We are happy to provide alternative cashflow projections at additional cost. These alternatives are for information only and should not be acted without appropriate matching financial advice. The cashflows are provided to allow us to determine if the additional advice is warranted.

Cashflows that do not have a Statement of Advice are general information and should not be considered personal advice as they do not take into account goals and objectives and do not contain explicit or implied recommendations or advice. Personal Advice should be sought before taking any action based on information contained in cashflows.

Cashflow Projections	Cost
Each additional or alternative cashflow Projection (depending on complexity)	\$1,000-\$2,000

## Risk Insurance commissions

Where we recommend risk insurance products to you, rather than charging a fee for service, we may receive commissions directly from the insurance company. These commissions are paid from the product costs and are not an additional cost incurred by you. The commission payable will depend on the product recommended, and on the amount of the premium paid or amount invested.

Initial or up-front commissions will be paid to us by the insurance company when your policy is implemented. The amount of commission payable will range from 0%-66% of the premium paid.

Ongoing commissions will be paid to us on a yearly basis on the anniversary of your policy and will range from 0% to 33% of the premium paid.

## Ongoing Review Service

Intertek Pty Ltd offers a comprehensive Ongoing Review Service. This service allows us to make sure that you stay on track to meet your financial and lifestyle goals and requirements.

Should you require such services, your Ongoing Review Service may include services such as:

- Annual Review of your Financial Plan
- Access to your adviser, including for ad-hoc phone, email queries and face to face meetings
- Investment portfolio review – we will review your portfolio at least once per year
- Personal Insurance review
- Administration services related to advice provided and accepted.
- Liaison with product providers and other relevant professionals where required, i.e. accountants, solicitors, mortgage brokers for administrative or professional services
- Liaison with Centrelink or DVA for Pension entitlements
- Updated cashflow of your current circumstances (if the client provides accurate up to date data including actual expenses)
- If you have a Self-Managed Superannuation Fund, we will review your portfolio at least once per year, including reviewing the Investment Strategy annually.

## Annual review of your Financial Plan

As part of the Ongoing Review Service, each year we will review your Financial Plan and make any changes to investments or strategies as required to ensure that your Plan remains appropriate to you, particularly as your circumstances change over time.

At your financial review we will:

- Review your current circumstances and objectives to see if there have been any changes
- Review the continuing suitability of your financial plan
- Review your investment or superannuation portfolio(s) and the performance of the underlying assets
- Review of any taxation or legislative changes that may affect your financial plan
- Make recommendations for any changes to investments or strategy as required
- Implement any agreed changes to your existing financial plan

NOTE: Any changes that sufficiently change your circumstances and require a new statement of advice and implementation are not covered by the annual review except under platinum service and would need to be paid for separately per the Statement of Advice and Implementation fees above.

## Fees for Ongoing Review Service

If an ongoing review service is suited to you, we will charge an Ongoing Review Fee commencing at \$3,000 to \$8,000 per annum. This will be calculated on a per annum basis and charged monthly. Alternatively, if your financial position is more complex, a tailored ongoing service and fee may be negotiated with you. Discounts are available if paid in advance.

Our Ongoing Review fees may be invoiced directly to you (deducted from a nominated personal account), or fees may be deducted from your investment funds (which would be paid to us by the product providers).

If you require any other services that are outside of your Ongoing Review Service, we reserve the right to negotiate a cost for these services based on our half hourly rate of \$300 inc GST. We will not charge you unless you have agreed to the service and associated costs.

**The method of calculation of your Ongoing Services Fee will be detailed within the Statement of Advice. We will also provide an estimate of the fee prior to proceeding, within the Statement of Advice.**

**We will not charge you an Ongoing Services Fee until you have agreed (in writing) to proceed with the Ongoing Service. We will also seek your consent to deduct fees from your investment where relevant.**

## Referrals to other providers

We may refer you to other professionals such as accountants or solicitors if you require advice in these areas. We will not receive any fees or benefits for these referrals, nor do we have any ownership ties with any referral parties – except that my family trust is a minority shareholder in the accountancy and tax firm – Positive Tax Solutions. I am not a director or responsible manager, but I do discuss the services available and costs with clients seeking accountancy and tax advice. It should be noted that Megan Lisa Wolfenden is my wife and is a Real Estate Agent. She may refer clients to me for financial planning services. To ensure no conflict of interest the reverse is not true,

Where other professionals refer individuals to us for financial advice, we do not pay them a referral fee.
